1 Product presentation 产品介绍

1.1 Product presentation 产品介绍

Digital signage, also known as intelligent digital electronic signage, is an integrated smart information display terminal that utilizes TFT LCD display technology to deliver high-definition, high-contrast, and highly readable visuals. It incorporates a CMS cloud-based content management system and IoT communication modules, replacing traditional static signs made of paper, acrylic, or metal. This solution enables remote one-click updates, dynamic content rotation, data integration, human-machine interaction, and IoT-enabled smart connectivity, forming a fully digital commercial display system.

The entire system consists of three layers: hardware display terminals, edge playback controllers, and a cloud-based CMS management backend. It can be deployed as standalone units or networked in bulk for centralized control.

电子标牌也叫数字智能电子标牌，采用TFT液晶显示技术，具有高清、高对比度和易读性的特点、CMS 云端内容管理系统、物联网通信模块组成的一体化智能信息发布终端，替代传统纸质、亚克力、金属静态标识，实现远程一键更新、动态轮播、数据联动、人机交互、IoT 智能联动的数字化商显系统。

整套系统分为三层：硬件显示终端 + 边缘播放控制器 + 云端 CMS 管理后台，可单独部署单机，也可批量组网统一管控。

1.2 Product function 产品功能

Digital signage, an all-in-one solution for digital information dissemination. Equipped with a cloud-based CMS remote management system, it supports multi-screen display of images, text, and videos, as well as batch control across multiple devices. Compatible with various scenarios including supermarkets, restaurants, hotels, factories, government offices, and industrial parks, it eliminates the cumbersome updates associated with traditional paper signs, reduces costs efficiently, and creates intelligent, visualized presentation spaces.

电子标牌，一站式数字化信息发布解决方案。搭载云端 CMS 远程管理系统，支持图文视频分屏轮播、多设备批量管控，兼容商超、餐饮、酒店、工厂、政务、园区全场景，告别传统纸质标识繁琐更新，高效降本，打造智慧可视化展示空间。

2 Technical specifications 技术规格

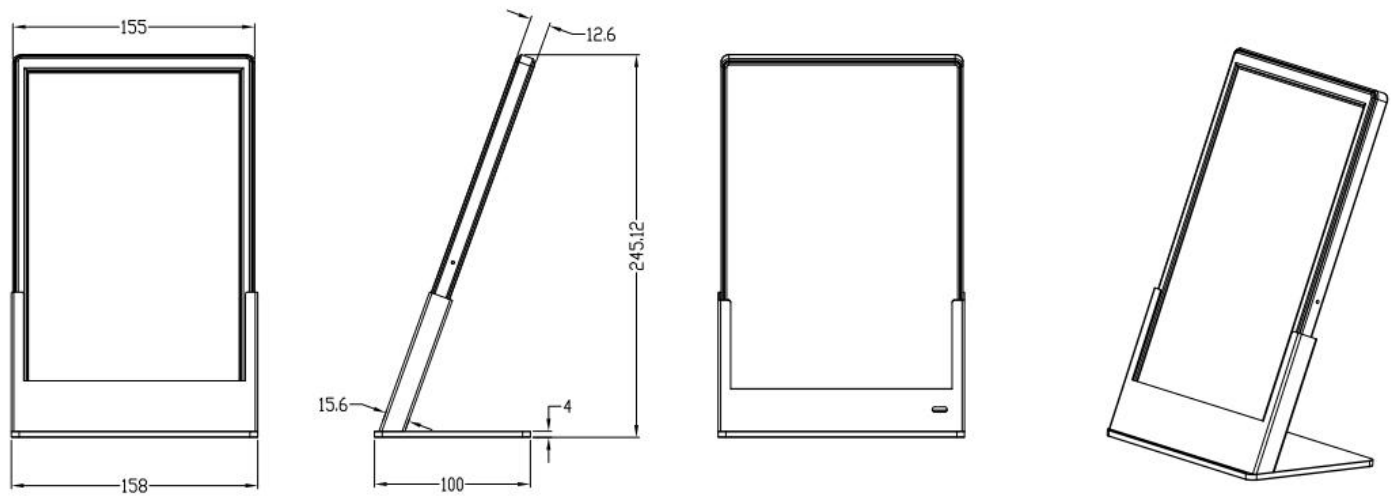

2.1 Specification parameters 产品规格参数

Item 项目	Specification 规格参数	Remark 备注
Size 尺寸	标牌机身：269 *155*15.6MM 底座小钣金：158*100*4MM	
weight 重量	Single screen 单屏：1003.2g±5g	
angle of view 视角	IPS	
visible window 可视窗	135*216MM	
resolution ratio 分辨率	800*1280	
viewing angle 观察角度	178°	
Storage 储存	128M	
picture format 图片格式	Jpg 480P 720P	
Video 视频格式	MP4、AVI、480P、720P	
operating temperature 工作温度	0-50°	
Brightness 亮度	280cd/m²	
storage temperature 存储温度	-10-60°	
operating humidity 工作湿度	40%--75% RH	
Storage Humidity 存储湿度	30%--85%RH	
power supply 电源	DC 9-28V	
Power 功率	Single screen 4W 单屏4W	

communication mode 通讯方式	Bluetooth /WIFI	
Online firmware upgrade 在线升级固件	Support 支持	
shell color 外壳颜色	Black 黑色
