1 Product presentation 产品介绍

1.1 Product presentation 产品介绍

Electronic price tag is an intelligent device used to replace the traditional paper price tag. It uses TFT liquid crystal display technology, which has the characteristics of high-definition, high contrast and legibility. The electronic price tag can be connected to the store's central management system via WIFI connection to achieve real-time update of product information. When commodity prices or promotions change, the store can quickly update the information on the electronic price tag through the central management system.

电子价签是一种用于替代传统纸质价签的智能设备。它采用TFT液晶显示技术，具有高清、高对比度和易读性的特点。电子价签可以通过WIFI连接与商店的中央管理系统相连，实现实时更新商品信息的功能。当商品价格或促销活动发生变化时，商店可以通过中央管理系统快速更新电子价签上的信息。

1.2 Product function 产品功能

The electronic price tag can display the name of the product, price, promotion information, etc., and can also display bar codes, two-dimensional codes, etc., for customers to scan. Customers can scan the QR code to get more information about the product, such as the origin and manufacturer of the product.

The use of electronic price tags not only improves the efficiency of stores and reduces the possibility of manual errors, but also provides stores with more flexible pricing and promotional strategies. At the same time, electronic price tags can also reduce the use of paper, save resources, and be more friendly to the environment

电子价签可以显示商品的名称、价格、促销信息等内容，还可以显示条形码、二维码等供顾客扫描。顾客可以通过扫描二维码获取更多的商品信息，如商品的产地、制造商等。

电子价签的使用不仅提高了商店的效率，减少了人工操作错误的可能性，还为商店提供了更灵活的定价和促销策略。同时，电子价签还可以减少纸张的使用，节约资源，对环境更加友好

2 Technical specifications 技术规格

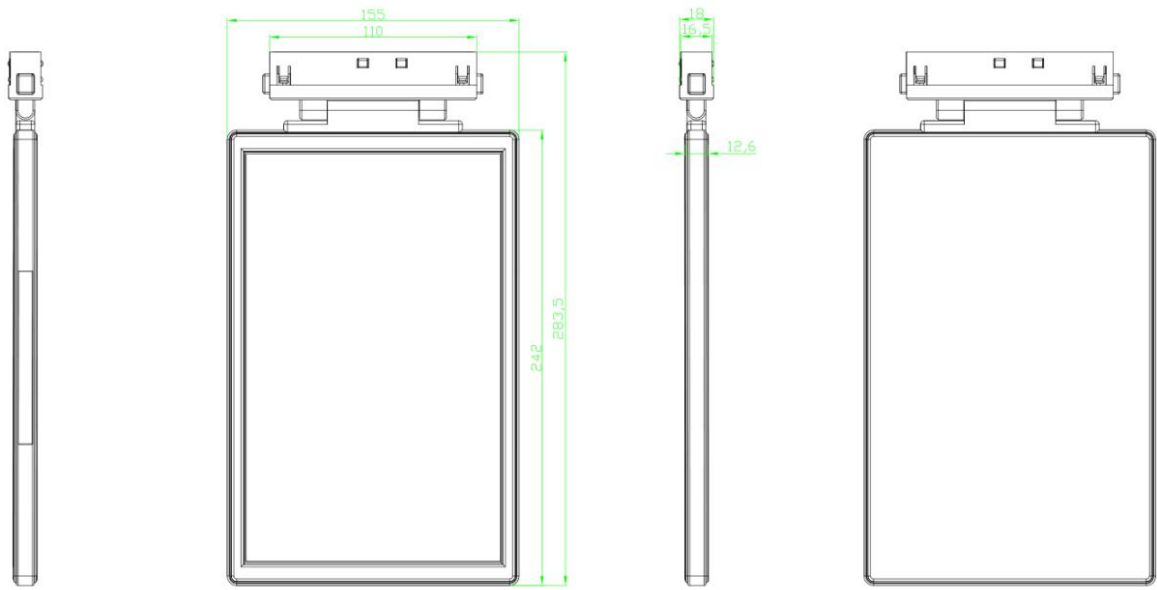

2.1 Specification parameters 产品规格参数

Item 项目	Specification 规格参数	Remark 备注
Size 尺寸	242*155*12.6MM	
weight 重量	Single screen 单屏：416 g±5g double screen 双屏：508 g±5g	
angle of view 视角	IPS	
visible window 可视窗	135*216MM	
resolution ratio 分辨率	800*1280	
viewing angle 观察角度	178°	
Storage 储存	128M	
picture format 图片格式	Jpg 480P 720P	
Video 视频格式	MP4、AVI、480P、720P	
operating temperature 工作温度	0-50°	
Brightness 亮度	280cd/m²	
storage temperature 存储温度	-10-60°	
operating humidity 工作湿度	40%--75% RH	
Storage Humidity 存储湿度	30%--85%RH	
power supply 电源	DC9-28V	

Power 功率	Single screen 4W/Dual screen 8W 单屏4W/双屏8W	
communication mode 通讯方式	Bluetooth /WIFI	
Online firmware upgrade 在线升级固件	Support 支持	
shell color 外壳颜色	Black 黑色	

3 Structure size 结构尺寸
